

Blue Horizons

Waterline Cleaning Paste

Key Features

- Removes grease and dirt from waterline
- Supplied with sponge applicator
- Compatible with many pool surfaces

Blue Horizons Waterline Cleaning Paste is a highly effective cleaner used to remove body oils, fats and grease that can form a tidemark around the waterline. The product can be used on concrete, tiles, fibreglass and vinyl liner pool surfaces.

Application Instructions

1. Lower the water level to expose the area to be cleaned.
2. Use protective gloves when applying this product. Wet the sponge, then apply to the area to be cleaned. Alternatively use a cloth or soft brush.
3. After application, wait for a minimum of 2 minutes, then gently rub to clean.
4. After cleaning the area, rinse thoroughly using pool water.
